How to Access Online Full Text in Discover!

If you see a green circle and **Full text available**, click on the **View It** tab for the link to full text.

When the **View It** tab opens, you will see the link to the database that contains the resource in full text. Sometimes there will be more than one link listed, so be sure the **Available from** information underneath the link you plan to click on matches the publication information of the resource.

After you click on the link, you should be able to view the resource in full text.
