Paragraph Bundles

GENERAL INFORMATION

- History of the Youngblood Library
- Using the Youngblood Energy Library
- Geology Library Photos
- Placing Geology Library Materials on Reserve
- Crinoid
- Ammonite
- Large Ammonite
- Carboniferous Plant-Fossil Slab
- Cephalopod Slab
- Selenitic Crystals
- Fossiliferous Limestone
- Quartz Menzenite
- Sabal Palm Froid

FEATURED AREAS

Information Commons
The Information Commons area offers both Mac and dual-screen personal computers, as well as scanning, photocopying, and printing equipment.

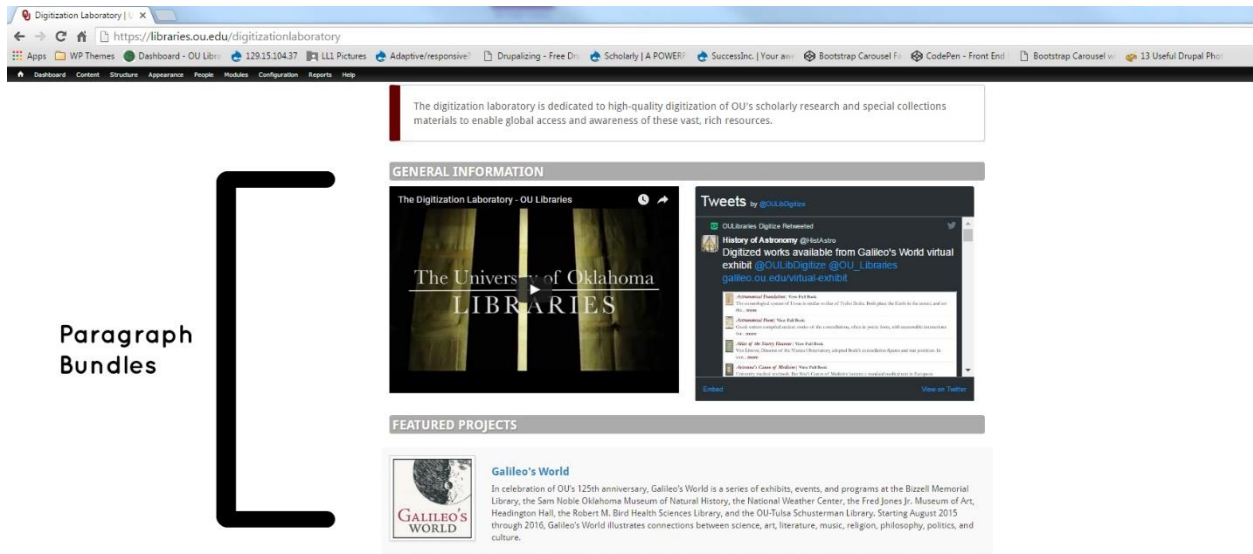

Geology Group Study Room
The Youngblood Energy (Geology) Library Group Study room is available for reservation by OU faculty, staff, and students. Visit the information desk to sign-up on the calendar.

COLLECTIONS

Current Periodicals
The Current Periodicals area provides easy access to print copies of some of the current periodicals and journals received at the Youngblood Library. Many of these journal titles also have electronic access.

Map Collection
The map collection includes a comprehensive collection of current and historical USGS topographic quadrangles, USGS maps in series (C, GP, GQ, HA, ML, MF, OC, etc.), Defense Mapping Agency maps of the world and numerous thematic sheets of geological topics.

FEATURED PROJECTS

Galileo's World
In celebration of OU's 125th anniversary, Galileo's World is a series of exhibits, events, and programs at the Buzzell Memorial Library, the Sam Noble Oklahoma Museum of Natural History, the National Weather Center, the Fred Jones Jr. Museum of Art, Headington Hall, the Robert M. Bird Health Sciences Library, and the OU-Tulsa Schuisterman Library. Starting August 2015 through 2016, Galileo's World illustrates connections between science, art, literature, music, religion, philosophy, politics, and culture.
