

# Research Help Desk Statistics

In LibAnswers' Ref. Analytics, we have 5 free datasets. I used three of them to create stat forms for Email, Chat, and SMS. Since we had two extra datasets, I used those to create stat forms for In-Person and Telephone transactions. Now, all 5 of the Ref. Analytic stat forms reflect the options on the current Qualtrics form. This way, the RHD staffers will have to monitor only one stat system instead of two, and all of the RHD stats will be collected and analyzed in one stat system.

# In-person and Telephone screen flow when reference and instruction are selected on screen 2.
